

Guide for using numbergym online access

Use Google chrome to go to this webpage. <http://www.numbergym.co.uk/>

Click on the online access tab.

The screenshot shows the homepage of the NumberGym Software website. At the top, there is a navigation menu with tabs for Home, Apps, Online Access, School order, Home order, Support, and Reviews. The 'Online Access' tab is highlighted. Below the navigation, the text reads 'Specialist maths software for school and home'. There are several images of software interfaces, including 'Table Trainer', 'Bond Builder', and 'Mental Maths Challenge'. A red button with a white arrow says '2 Week Free Trial'. On the right, there is a section titled 'What teachers say' with a quote from Clint Lees, Robert Wilkinson Primary School, York.

Enter the school name. The password is Stotty2010.

The screenshot shows the login screen for NumberGym Maths. The title is 'NumberGym Maths'. Below the title, there is a text input field for the school login and password. The school name 'Stottesdon' is entered in the first field, and the password is masked with dots in the second field. A blue arrow button is to the right of the password field. The background is a blue gradient with a grid of lines.

Choose the area of maths you would like to access.

The screenshot shows the main menu of NumberGym Maths. The title is 'NumberGym Maths' and it says 'Licensed to: Stottesdon Primary School, DY14 8UE'. Below the title, there are several buttons for different software options: Bond Builder, Table Trainer, Early Maths, Mental Maths Challenge, The Number Gym, NEW Number Gym, Maths Art, and NumberGym Geometry. The background is a blue gradient with a grid of lines.

You may be asked to enter your student login, as some activities record your progress so you can improve your scores.

Your student login should be the same as your mathematics password (a word and number eg. Park45). This can be found on your mathematics login card.

Choose the activity you wish to practice. As you start to use numbergym and your scores update, numbergym will automatically suggest which activities you should try with a light bulb.

In the table trainer and bond builder activities, you drag the information in the centre to the correct choice.

Any questions please contact school.
