

Microsoft Office for Free on Personal

Devices

Dear All,

During this lockdown I thought it would be useful to share again how students can download and install Microsoft Office for free onto a home computer to assist with Home Schooling.

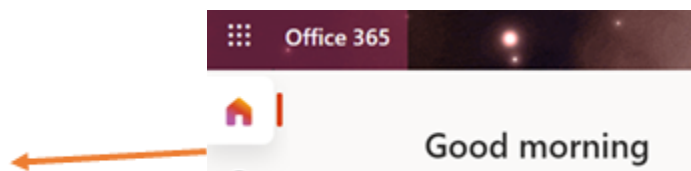

All they need is their Office 365 login and password and follow the instructions below.

Kind Regards,

Kirsty

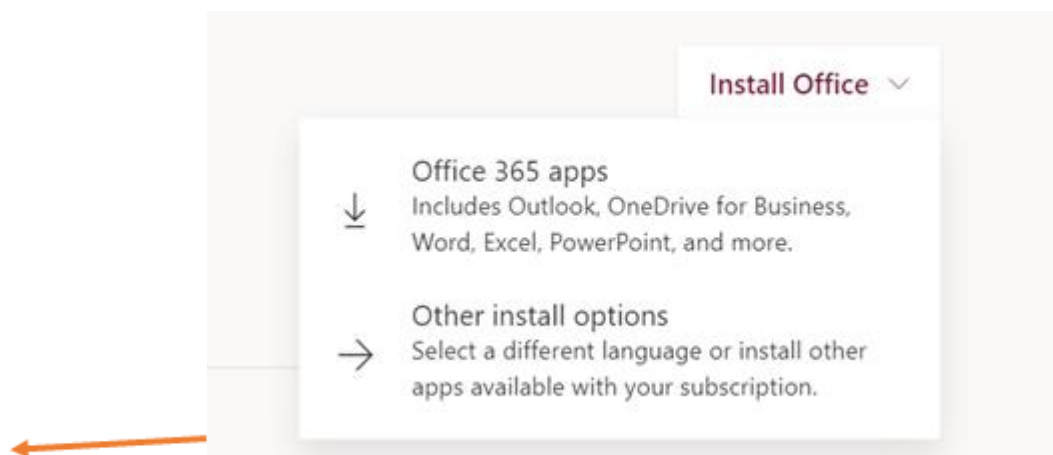

How do I install my free student download of Microsoft Office?

1. Login to your **student** email account on the device that you wish to **install Microsoft Office** on - www.office.com
- 2.
3. Navigate to the **Office** 365 home page, by clicking the icon below.

Under **Install Office**, select '**Office 365 Apps**'.

4. A new window will open where you can select and **install** the operating system you require for your device/s.
- 5.
